About

Graduate with a Bachelor of Technical-Vocational Teacher Education, major in Electronics Technology, with experience in client relations, warehouse operations, inventory support, electronics repair, and science research. Organized, adaptable, and dependable, with strong communication, problem-solving, record-management, and technical skills. Ready to contribute to a professional workplace while continuing to learn

Work Experience

Client Relations Officer | Better Practice

Managed client inquiries, appointments, CRM records, document requirements, and follow-ups. Assisted doctors with PRC and BIR-related processes, monitored document submissions, coordinated client concerns, and maintained clear and professional communication throughout each transaction.

Warehouse Staff | J&T Express

Supported daily warehouse operations by receiving, sorting, organizing, checking, and preparing parcels for distribution. Maintained accurate inventory records, handled items carefully, followed workplace procedures, and helped keep the warehouse clean, safe, and orderly.

Home-Based Technician

Diagnosed, repaired, tested, and maintained various electronic devices based on client concerns. Identified possible faults, completed repairs carefully, explained the work performed, and provided timely, dependable, and high-quality service.

Practice Teacher Intern | Lawang Bato National High School

Prepared and delivered Grade 8 Technology and Livelihood Education (TLE) lessons, facilitated classroom and hands-on learning activities, monitored student performance, and managed attendance, assignments, quizzes, classroom routines, and learning materials. Applied teaching, communication, organization, and classroom-management skills during supervised teaching practice.

On-the-Job Trainee | Winland Electronics and Electrical Center

Supported data encoding, inventory monitoring, workplace coordination, and daily operations while developing communication, organization, and time-management skills.

Education

Bachelor of Technical-Vocational Teacher Education Major in Electronics Technology (2022–2026)

I completed a Bachelor of Technical-Vocational Teacher Education, major in Electronics Technology, at Valenzuela City Technological College. Through the program, I developed knowledge and practical skills in teaching, technical instruction, and electronic systems.

Pamantasan ng Lungsod ng Valenzuela (2020–2022)

I completed my Senior High School education at Pamantasan ng Lungsod ng Valenzuela Senior High School under the Science, Technology, Engineering, and Mathematics (STEM) strand, where I enhanced my analytical, scientific, and technical skills through practical and research-based learning.

Canumay East National High School (2016–2020)

I developed a strong foundation in academics, research, and technical skills, which helped me excel in science and technology subjects, conduct small research projects, and gain practical experience in technical tasks.
